M3.01 EVALUATION OF OFFERS WHERE UNCOMMON ESCALATORS ARE USED (DESC JAN 1998)

(a) **FOR EVALUATION PURPOSES ONLY**, an evaluation factor will be applied to the Final Proposal Revision (FPR) prices of those items in which uncommon escalators are proposed as a basis for economic price adjustments. The evaluation factor will establish a commonality among the different postings or publications offered in order to ensure that all offerors are evaluated on an equal basis.

(b) The offeror's margin (plus or minus) will be established as the difference between the FPR price and the Final Revised reference price. The margin will then be added to the 12-month average of the posting or publication being proposed to determine the evaluated price. The 12-month average will be calculated over the most recent complete 12-month period prior to the established reference date (i.e., if reference date is August 22, 1994, then the 12-month period would be August 1993 - July 1994).

POSTING HISTORY INSTRUCTIONS

A. Clause B19.27-3 ECONOMIC PRICE ADJUSTMENT – MARKET PRICE (PC&S) (ETHANOL) DESC JUN 2002, permits the contractor to use supplier cost as reference prices. The posting for the diesel portion must be a catalog or market price that will be verifiable by the U.S. Government prior to acceptance (AXXIS or OPIS). The Ethanol portion will be based on supplier cost. In order to verify that the posting you selected meets these requirements, please provide the following information with your offer. **Please provide the information separately for each product and posting used.**

1. Posting History – Request your company submit a one (1) year posing history, for each line item/product offered using a different posting, on the attached worksheet contained in the Offeror Submission Package. The one year posting history shall encompass a full year with the last month history including the base reference date.
2. To facilitate the evaluation and approval process for the award price, each price history should show average weighted monthly prices. Prices are to be weighted by the number of calendar days in each month that a price is in effect. The sum total on the “weightings” shall be divided by the number of days in the month.

3. EXAMPLE:

Price Changes Effective: April 1, 2005	\$1.5000
April 15, 2005	\$1.4700
April 25, 2005	\$1.4800

The average weighted monthly price for April 2000 would be computed as follows:

April 1-14	14 days x \$1.5000	\$21.00
April 15-24	10 days x \$1.4700	\$14.70
April 25-30	<u>6 days x \$1.4800</u>	<u>\$13.14</u>
Total	30 days x (in April)	\$48.84 divided by 30 days

The weighted average price for April 2005 is \$1.6280.

B. Request the attached Posting History Worksheet on the next page be completed and returned with weighted average postings by month for each product and line item offered, that will use a different posting/ethanol supplier. **ALL OFFERS MUST COMPLETE AND RETURN FOR ALL ETHANOL (E85) ITEMS OFFERED ON.**

C. Regular item prices escalate daily. As noted above, monthly weighted averages will be used to evaluate offer prices for initial award.
